Resincraftcode – materials and rules

Handmade resin art, Phuket. This file lists everything Anna really has. Use ONLY these molds, colours, glitters and add-ons. Do not invent anything else.

Golden rules

1. Never change the shape of a mold or of an add-on. Only improve photo quality (sharper, clean edges, no grey halo).
2. Only use the colours and glitters in this file. No rainbow mixes, no iridescent colours.
3. Every piece is clear glossy resin. Designs must look like real photos of handmade products, not AI illustrations. Calm, elegant, uncluttered.
4. Add-ons sit INSIDE the resin. Keep items inside the mold outline, never touching the edge.

The 4 resin styles

- **Clear**: clear resin, no colour. Decorate with glitter and add-ons inside (flowers, shells, charms, gold leaf).
- **Gradient**: 2–3 colours fading into each other + glitter. NOTHING goes inside.
- **Ink dye**: swirls and little cells of ink in 2–3 colours. Only little figures, sea animals, metal charms, pressed flowers and dried flowers can go inside. No glow glitter.
- **Sea / ocean**: fixed blue water (deep navy, royal blue, turquoise) with sand. No colour choice, no glitter. ONLY real shells and starfish are allowed inside.

Extras

- Also basic molds: Tag, Heart, Circle, Star (small size).
- Letters A–Z and numbers 0–9 molds exist (small size, can have ring, chain and tassel).
